

Pricing Sheet

Each PARC account is defined by the files users choose for it. Subscribers may have a single, internal, enterprise-wide account for all their survey materials; multiple internal workgroup accounts; client-facing accounts; and/or stakeholder or public-facing accounts.

Each account carries an annual subscription fee. Prices are tiered by company size. Rates are discounted for multiple accounts. First-year accounts are discounted, and first-year subscriptions are refundable, pro-rated.
